

Yes, you can.®

Azalea® Family
One big family

One family fits all!

For over 55 years, Rea™ has proved synonymous with the very best and latest in innovative seating expertise, creating chairs that are designed to perfectly adapt to different seating needs and to cater to each individual's size, weight and height.

Developed within our Rea™ range, the **Azalea®** models continue this tradition, with each chair benefiting from the unique Rea™ 'tilt-in-space' weight-shifting system and body-length compensation technology. This gives each user the assurance of being perfectly-positioned and totally secure when seated.

Confident Posture

The 'one-frame-concept', upon which **Azalea®** has been developed, provides variations on a theme that is guaranteed to meet the needs of all users. The chairs form a family that delivers comfort, safety and most important of all - perfect posture.

rea **Azalea® Minor**

Teenagers or petite adults benefit from the compact design of **Azalea® Minor**.

rea **Azalea® Tall**

Designed to meet the unique requirements of tall users.

A versatile range that evolves

The **Azalea®** family of chairs already offers a comprehensive set of solutions comprising the standard **Azalea®** chair, the **Azalea® Minor**, **Azalea® Tall** and the highly customisable **Azalea® Base**. This range continues to be developed by Rea™.

Discover the popular members of the Rea™ **Azalea®** family!

rea **Azalea® Base**

Base frame for bespoke seats, where users have very specific seating needs.

rea **Azalea® Assist**

Especially designed for fully-dependent individuals

rea **Azalea®**

Our original model, perfect for users with limited mobility

rea **Azalea**[®] - Compatibilities

All **Azalea**[®] wheelchairs are highly compatible with each other.
For detailed information on these compatibilities, please refer to the Compatibility Catalogue available from your local dealer.
