

**Yes, you can.®**

**rea** *Spirea*<sup>®4</sup><sub>NG</sub>

**Rediscover freedom of mobility**

Rea™ *Spirea*<sup>®4</sup><sub>NG</sub> is a dynamic and durable lightweight folding wheelchair ideal for everyday use. By incorporating client input and user feedback into the design, the Rea™ *Spirea*<sup>®4</sup><sub>NG</sub> offers light handling, minimal adjustment requirements, high technical quality and low maintenance, making it a perfect choice for users, carers and engineers alike.

Confidence in posture solutions

### ➤ **Ease of movement**

The celebrated design principles of the **Spirea**<sup>®</sup> family underpin the **Rea**<sup>™</sup> **Spirea**<sup>®4</sup><sub>NG</sub> construction, making wheeling and self-propulsion effortless and trouble-free. Height-adjustable push handles and rear wheel position adjustment options enhance the easy manoeuvrability of the **Spirea**<sup>®4</sup><sub>NG</sub> whilst its solid chassis negates wheeling resistance. The newly designed rear wheel plates offer a wide variation of choices, helping you to find your ideal driving position.

### ➤ **Optimum manoeuvrability and stability**

With **Spirea**<sup>®4</sup><sub>NG</sub>, negotiating corners and narrow spaces is a joy thanks to leg rests that swing snugly under the seat or sideways if making a transfer. The frame construction boasts a unique cross-brace system affording dual-directional stability; a feature that demands less energy when propelling.

### ➤ **High modular compatibility and Heavy Duty version**

With its durable, high stability - low maintenance aluminium frame, the **Spirea**<sup>®4</sup><sub>NG</sub> benefits from a strong tradition of safe design. All components from wheels to leg rests can be found throughout the whole range of **Rea**<sup>™</sup> and **Invacare**<sup>®</sup> wheelchairs. Just three easy-to-use handheld tools for all adjustments on the **Spirea**<sup>®4</sup><sub>NG</sub>.

### ➤ **Go the distance with easier transportation**

The **Spirea**<sup>®4</sup><sub>NG</sub> is a versatile, lightweight wheelchair. Once folded and when rear wheels have been removed, the **Spirea**<sup>®4</sup><sub>NG</sub> easily slides in behind the front seat or boot of the car. Its weight without rear wheels is just 9.5 kg, making it simple to handle and transport. The **Spirea**<sup>®4</sup><sub>NG</sub> has been crash-tested and complies with all European Quality and ISO standards.

## Features & Options

### Foot propelling

The optional 22" wheels give the **Spirea<sup>4</sup><sub>NG</sub>** a very low seat height, ideal for hemiplegic users and for foot propelling.

### Backrest attachment

The fixed, 7° backrest and the angle adjustable version can be easily mounted on the backrest attachment.

### Amputee support

Specially-designed amputee support on the **Spirea<sup>4</sup><sub>NG</sub>** is both practical and stable.

### Legrests

Legrests available in fixed, angle-adjustable, plaster and amputee variants. Hanger legrests available with fixed or adjustable footplates.

### Armrests

Short and long armrests with detachable and hemiplegic variants.

### Safety against tipping

The position and height of the anti-tippers can be adjusted to offer extra safety and prevention against tipping and trampling.

### Rearwheel positions

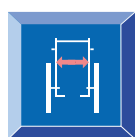

Rear wheel fixture on Standard model offers three positions, Active version offers 8 positions for an optimal driving framework.

### Build in Camber

The **Spirea<sup>4</sup><sub>NG</sub>** has two different built-in camber positions available without additional components. Simply reverse the bracket to achieve 0 and 2 degrees camber. Works with Active and Standard rear wheel fixture bracket.
